

Number DRLRA020040 / DRLTA020042 / DRLTA020044 / DRLSA020045
Model FAIRLADY Z Z34

Use of the sponges is recommended

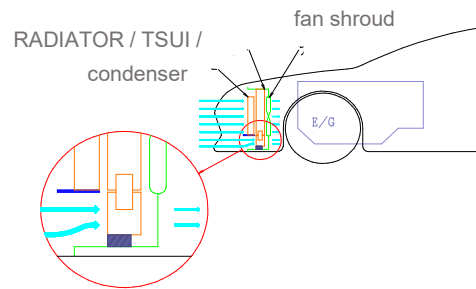

When the RADIATOR / TSUI / SOU is installed on the fan shroud, there will be a gap below the product. Please use the included sponge in order to prevent the airflow from escaping.

*Below image is TSUI / DRLTA020042 (7 rows oilcooler)

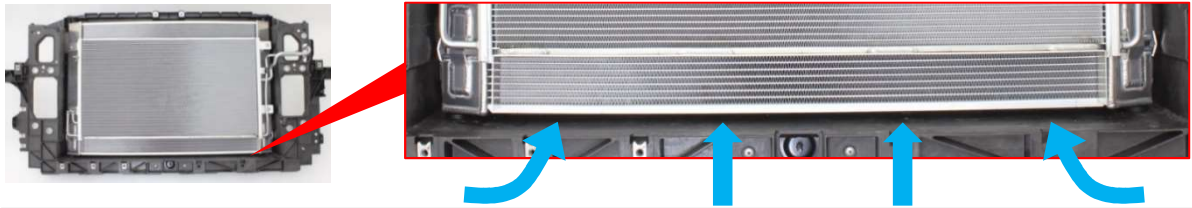

Without sponge

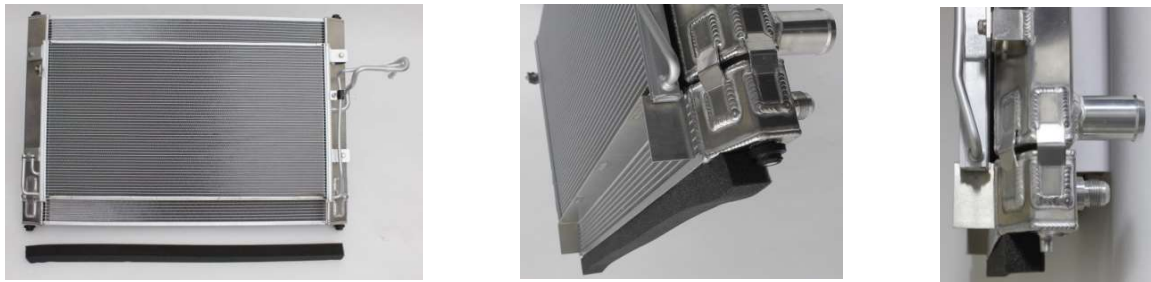

With sponge

When the product installed without the sponge, the airflow escape through the gap

Please fit the included sponge along the sides of the core support

When the core support is fitted with the sponge and installed on the fan shroud, the gaps are sealed, preventing the airflow from escaping
