

Date: 01.13.2023

Dear Customer,

As you are aware, under the recent unstable social and economic conditions, the cost of raw materials and transport have been rising steadily.

At Daiwa Radiator Group we have been working to keep prices until today, however, it became difficult for us to absorb the continuous increase.

Thus, we regret to inform the price change regarding DRL products from the order of February 1st 2023.

Price change is 15% increase from current price.

We constantly strive to provide with the best Japan Made products and service for our customers.

We appreciate your understanding and continuous support.

Any inquiries, please kindly let us know.

Best Regards,

Daiwa Radiator Factory Co., Ltd.
